Treating entire hot water system

HYATT.....LOCATED IN BUSAN, KOREA
Treating entire hot water system

Fernandez Bay Village, Bahamas: Initial Feedback

Sorry it's taken me so long to get back to you, but with the clean up after hurricane Irene and getting the hotel ready to open on time I've been working flat out.

I finally got 2 of the units installed. One at the ice machine, and one at one of the well pumps. It seems they are working as advertised. We've been so busy this year I really haven't had time to really look. All I know is that I'm not having as many problems with calcium build up on the toilet flap valves and sink faucets. I hope to get the other two installed when we close this fall. When we close I'll get a chance to take a closer look at the other trouble spots.

Continental Hotel, Guayaquil, Ecuador

Continental Hotel Testimonial

Our company installed SCALETRON catalytic water treatment units in the water supply pipe line for an ice processing machine and a coffee making machine.

The Scaleton equipment removed existing deposits that had accumulated and has eliminated the need to dismantle the equipment to perform maintenance and cleaning.

This application has shown the efficiency of catalytic treatment so we are planning the installation of this equipment in processes where water treatment is required at the hotel.

Sincerely

Jorge Noble
Maintenance Manager
CONTINENTAL HOTEL.
