

## Video Clip Request

Fluid Dynamics Housatron: The following text could be e mailed (copy / paste) to satisfied customers encouraging them to submit a brief video testimonial from their smart phone.

We're happy to hear that you're delighted with your Housatron installation. Fluid Dynamics would like to continue its quest to reduce water waste and the use of chemicals (salt) for the purpose of scale prevention. You can help improve the environment by providing a short video using your smart phone. If you're willing to help spread the word about the totally green Housatron please answer the following questions in your brief video:

Name:

Occupation:

Location:

Reason for Purchase:

Results:

What you think of the product:

This is an example of a video:

"Hi, I'm Dave Loveless an insurance consultant in Cave Creek, Arizona. I purchased a Housatron as our salt water softener was old and we were getting scale in the home. It's working great and with my bad back I'm happy I'm not buying and moving bags of salt around anymore."

Once you've made your video simply forward it from your smart phone to Fluid Dynamics.

Thanks for your help in saving water and reducing the amount of chemicals that are introduced to drainage systems.
